## EDITOR'S & WEBMASTER'S REPORT (Combined)

**Saturday 12<sup>th</sup> September 2015**  
**3/16 Queen Mary Avenue, Epsom**  
**10am-12noon**

Kia Ora and welcome to our 2015 AGM. It is my pleasure to present this, my 14<sup>th</sup> Report on both our Newsletter and Website (N.B. This AGM is slightly later in the year than usual).

**T****E REO** – The structure of the newsletter in both electronic and hardcopy format continued to remain constant throughout the year and as always I am extremely grateful for contributions from our members – although these have been somewhat lacking this year unfortunately.

One significant change to the electronic newsletter this year has been to remove public access to these issues by moving them from the MIG site and into a 'Members Only' portal via the NZSG website as detailed in the May newsletter. We are extremely grateful to the NZSG webmaster Roger SHEARER for his help with moving our newsletters to the NZSG website.

As always, the Black & White hardcopy issues of *Te Reo* are an important and permanent record of the group's activities, although the newsletter is best viewed in full colour online through the NZSG website.

Hardcopy details of the newsletter (August 2014 to May 2015) are as follows;

- |                   |                              |   |
|-------------------|------------------------------|---|
| • <b>Aug 2014</b> | <b>50 Hardcopies/24pages</b> | <b>A\$ 99.90</b>                        |
| • <b>Aug 2014</b> | <b>10 Hardcopies/24pages</b> | <b>A\$ 61.79 (Incl. 5x AGM Insert)*</b> |
| • <b>Nov 2014</b> | <b>50 Hardcopies/24pages</b> | <b>A\$ 99.90</b>                        |
| • <b>Feb 2015</b> | <b>50 Hardcopies/24pages</b> | <b>A\$ 99.90</b>                        |
| • <b>May 2015</b> | <b>50 Hardcopies/24pages</b> | <b>A\$105.40 (Incl. 50x AGM Insert)</b> |

*\*During the year, the Tamaki Makaurau Library, Auckland, joined the Group as an Institutional Member and requested additional copies of the February and May 2014 newsletters, which we were pleased to supply them with during August last year.*

This represents 210 hardcopies with a total printing cost of A\$466.89 or approximately A\$2.23 per issue – and despite the additional copies in August for the Tamaki Makaurau Library, Auckland, it is pleasing to note that this is a small decrease on last year's printing costs.

Printing receipts have been deposited with the Secretary for inspection. *N.B. The Covers and AGM Inserts on Green reflex are slightly more expensive than the inside B&W pages.*

**\* Clarification—Previously the various Auckland libraries subscribed to Te Reo individually. Now Tamaki Makaraurau subscribes centrally on behalf of all the Auckland libraries.**

**W**EBBSITE – Again the website format has remained stable but functional throughout the year and has required minimal maintenance by way of occasional updates with feature articles and news items. There are the inevitable technical glitches and I continue to urge all users to please point out any broken links and/or errors etc to us – as we may not always see what you may see due to our host caching.

Users may (or may not!) have noticed small cosmetic changes near the bottom of the MIG homepage, which have filled an otherwise awkward blank area;

**WE NEED  
YOUR HELP!**

Can members attending Family History events please take photos and write a short report for the newsletter and website please.

Under the “Research” dropdown menu we have also added a “Genealogy Relationship Chart” to help untangle confusing ‘Cousin’ and ‘Times Removed’ family associations.

While the (feature article) “Archives” menu has been improved to accommodate the original graphic that was the flick-over feature.

## Family relationships chart

Ever been confused about family relationships? We hope this Chart will help sort things out...

**Instructions:**

1. Select two people in your family and figure out which ancestor they have in common. For example, if you chose your grandparent in common!
2. Look at the top row of the chart (#1-10) and find the first person's relationship to the common ancestor.
3. Look at the far left column of the chart (A-J) and find the second person's relationship to the common ancestor.
4. Move across the columns and down the rows to determine where the row and column containing these two relationships meet - This box is the relationship between the two individuals (i.e. #5 & "F" (X) are 3<sup>rd</sup> Cousins, Once Removed).
